

CARING FOR 40FIED JEWELLERY

- 40fied jewellery is hand-crafted using special beads, semi-precious stones, crystals, cultured pearls, metals / chains (plated and non-plated) and other embellishments.
- The alloy charms and non-precious items are crafted from steel or brass, and are Lead, Cadmium and Nickel free.
- Kindly handle this delicate piece of jewellery with care. 40fied cannot take responsibility if the jewellery is dropped or mishandled leading to breakage of stones or embellishments.
- Do not wear jewellery while showering, sleeping, exercising or swimming.
- While using perfumes or cosmetics we suggest you wear the jewellery after their application is completely dry.
- A regular polishing cloth can be used periodically to restore shine and remove tarnishing and residue.
- When not in use, we recommend you store your jewellery in a cool dry place, in a pouch, jewellery box or sealed plastic bag, away from moisture.
- Wearing your 40fied jewellery on special occasions with care will maintain its look and shine for a long, long time.
